

Parent Volunteer Program

Orcas Christian School

All families are encouraged to commit 10 hours per semester in support of student life.

Research indicates that parents' involvement in their children's education has a profoundly positive effect on students' success. In order to promote your child's self-esteem and encourage her or his best effort, the staff of Orcas Christian School invites you to become a partner in education. Please indicate your preferences of activity or activities below, and submit this form at the time of registration.
